ABOUT OUR DELAWARE IN-DISTRICT EMOTIONAL SUPPORT PROGRAM

Through a partnership with Christina and Appoquinimink School Districts, Merakey operates therapeutic in-district classrooms for students in elementary, middle, and high school struggling with emotional support needs. The model focuses on the core principles of Applied Behavior Analysis (ABA) and effective behavior, educational, and emotional programming to maximize each student's potential. The goal is to cultivate the skills necessary to regulate behavior, maximize academic potential, and foster natural support systems for long term success.

Our classrooms staff consists of the following:

- Highly qualified special education teacher
- Master's Level Clinical Specialist
- Bachelor's Level Behavior Interventionist
- Paraprofessional

In addition to specialized classrooms, Merakey also provides Board Certified Behavior Analyst (BCBA) Services. BCBAs focus on classroom management and operant analysis while emphasizing antecedents, behaviors and consequences along with understanding of the functions of behavior. This support assists our staff with data driven decision making and learning the procedures to systematically improve maladaptive behaviors.

Student Support Staff Services are also provided in which an individual is responsible for providing support based on the child's strengths and interventions along with behavior modification techniques that will be individualized to best meet the needs of each student in the building.
